

December 8, 2008

Dear Sir or Madam:

Please consider this letter a referral on behalf of Ms. Susie Carder. We have known her both personally and professionally for over five years. In that time, we have had the opportunity to observe her in multiple settings. She consistently demonstrates leadership and decisiveness in what ever she sets out to accomplish. We have assisted Susie in purchasing investment property and appreciate her fundamental knowledge for determining value and rate of return on her investment. Her early background as a business proprietor and later as a chief executive officer has contributed to her success and ability to set goals both achievable and exemplary.

Susie has proven that having vision and commitment can result in some very remarkable achievements. She is an author, mentor educator, wife mother, executive and most certainly a person of high moral character.

Susie and her husband Bert are examples of what hard work, caring for employees, setting goals and holding people accountable, taking care of family and friends, and genuinely being good people can result in bringing joy and happiness into their and other people's lives.

We find Susie remarkable in so many ways and whole heartedly give our support for her success in the position she has applied for.

Please feel free to call us on (760) 412-0968 or (619)549-9613 if you have any questions or would like to talk live.

Sincerely,

Ralph and Dora Gonzales
Owners
